

## ABOUT US

Our company Elbir was founded in 1986 by two brothers Mr Ahmet and Mr Sabri . Our factories are located in ISTANBUL and GEBZE /TURKEY. We manufacture Steering & Suspension parts such as Ball Joint, Tie Rod End, Axial Joint, Stabilizer Link, Track Control Arms Rubber & Bushing parts and Engine Mountings for passenger cars and light commercial vehicles.

We produce Suspension parts for all European – Japanese & Korean –American passenger cars and our production range has approx. 9.500 items. Thanks to our Research & Development dept. that every month many new models are included.

In 1992, our products met with overseas customers first time. During the time new investments has been made to enlarge the production range and to cover aftermarket steering & suspension parts requests of our customers. Today, we produce high quality products in our factories utilizing 25.000 sqm indoor facilities By the continues demands of our customers we increased our capacity to 350.000 parts per month.

Experienced & Qualified production team, high-tech machineries, top quality raw materials and taking small details into consideration carries ETS products to perfection. Our Quality Management System is ISO 9001:2008 certified. Therefore, ETS aims to be the leading company in the aftermarket by using its dynamic structure, developing professional identity and updating itself according to World Automotive Industry. We are proud to export 80 % of our production to USA, UK, Germany, Italy, other EU countries, and many Asian and North African countries.

Our prensiple is

- Premium Quality
- On time deliveriy wity exact quantities
- Competitive price

Our company policy is to offer the best quality and best customer service at a reasonable price and build a ETS family together with our clients. Therefore, we appoint one single official ETS distributor for each region and country.

Beyond the quality, ETS products known in the market with its reliability and competitiveness.
